EDUCATION

Ganpat University, Mehsana, Gujarat B.Tech in Computer Engineering CGPA: 7.83	2021 – 2025
Knowledge High School, Nadiad, Gujarat GSEB (Class XII) - 74%	2020 - 2021
F.K Patel High School, Demol, Gujarat GSEB (Class X) - 76%	2018 - 2019

EXPERIENCE

Jr. Node.js Developer <i>PropLegit Global Private Limited – Ahmedabad, Gujarat</i>	Jan 2025 – Present
---	---------------------------

Promoted from Intern to Junior Node.js Developer after successful internship completion (June 2025).

Roles & Responsibilities:

- Develop and maintain REST APIs and backend workflows using Node.js, Express.js, JavaScript, TypeScript and SQL Server for enterprise applications.
- Own backend feature delivery across API development, database integration, third-party services and frontend integration with React and Angular teams.
- Build and maintain client-facing APIs, webhooks and integrations, along with Postman collections and technical documentation.
- Work with AWS S3 and SQS for document management and asynchronous processing, while troubleshooting production issues across application, database and integration layers.

Key Achievements & Learnings:

- Designed and standardized a secure MaskID-based document access approach with AWS S3, improving controlled document retrieval across company products.
- Improved backend reliability and performance through SQL optimization, caching, input validation, rate limiting and production root-cause analysis.
- Developed strong expertise in enterprise workflow architecture, third-party integrations, AWS services and legacy PHP-to-Node.js modernization through production development and feature delivery.

JaherNotice – Property Protection & Land Records Platform

Backend developer for a real-estate platform covering Property Protection, Title Search, Land Records, Area Alerts and public notices, built using Node.js, Angular, MySQL, SQL Server and AWS (S3, SQS). Contributed to backend workflows, notice-to-property matching, QC modules, notification services and secure document access while helping modernize legacy PHP functionality.

Spider 2.0 – PropLegit Property Due Diligence Platform

Backend developer for a property due-diligence platform covering Property Verification, Title Search, Property Valuation, QC and workflow management, built using Node.js, React.js, SQL Server, MongoDB and AWS (S3, SQS). Developed workflow APIs, external banking integrations, report-processing services and configurable application-status workflows, including SQS-based asynchronous processing.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML, NoSQL

Frameworks & Libraries: Node.js, Express.js, EJS, React.js, Angular, CSS, Bootstrap

Databases: SQL Server, MySQL, MongoDB, PostgreSQL

Cloud & Tools: AWS (S3, SQS), Postman, GitHub, Visual Studio Code, Figma

Core Competencies: REST API Design, Async Programming, Database Optimization, Stored Procedures, Workflow Automation, Multi-DB Synchronization, File Upload Systems, Document Management, PDF & Email Automation, Third-Party API Integration

PROJECTS

Explore Bharat – A Tourism Portal | *EJS, Node.js and MySQL* **Jan 2025 – May 2025**

- Built a full-stack tourism platform with dynamic EJS rendering, real-time admin-user chat, Gemini AI chatbot and Google OAuth authentication.
- Deployed on Render with a MySQL backend and admin dashboard, enabling destination management, user interaction, and blog publishing during internship at PropLegit.

MindMate – Mental Health Platform | *EJS, Node.js and MongoDB* **Aug 2024 – Dec 2024**

- Built a mental health platform with mood tests, counselor appointments, and daily activity recommendations.
- Secured user authentication and account management with Google OAuth and MongoDB-backed user data.

ACHIEVEMENTS & RECOGNITIONS

Employee of the Month **June & Dec - 2025, Feb & May – 2026**

- Awarded for outstanding backend performance, API optimization, and system reliability.

HackNUthon 6.0 – Nirma University **March - 2025**

- Participated in national-level hackathon focused on rapid solution development.

Smart India Hackathon (SIH) – Backend Developer **Sep - 2023**

New India Vibrant Hackathon (SSIP) - Participant **2022 & 2023**
